

14 April 2010

To Whom it may concern,

After a year using Permanon Supershine on board MY Anastasia we are happy with the results on all exterior surfaces (stainless, glass & awlgrip paintwork). We have been using the Permanon Shampoo as wash down soap for the last 6 months & find it reduces water marks significantly & water “beads” off when rinsing down between washes. We have not found the need for Permanon Prewash as we are happy with current results. Paint repairs have not shown any finishing issues when coating surfaces that have been washed with permanon.

Sincerely,

James Dreyer
2nd Officer
MY Anastasia
