

Euro Automotive Group

Lamborghini Sydney
MD 18533

20th September 2010

Dear Sir/Madame

Lamborghini Sydney endorses Permanon Automotive products.

We use Permanon Supershine on our cars to help maintain the highest standards required for this level of vehicle. Whether we are showing, road testing, servicing or delivering a car, we need it to be looking its best and Permanon delivers us an easy to maintain, hi gloss surface. Permanon is quicker and more effective than conventional products or waxes.

We use Permanon Supershine in our showroom and service area and recommend Permanon Supershine as a final finish and maintenance product that we know will exceed our customers' expectations.

Kind Regards

Ian Watts
